ADVANCE CONSTRUCTION PROJECT LISTING

STATE OF CALIFORNIA
2010/11 – 2013/14 Federal Statewide Transportation Improvement Program

ADVANCE CONSTRUCTION

Advance Construction is a cash flow management tool that allows the Department to initiate a project using non-federal funds while preserving eligibility for future Federal-aid funds. The Department may convert the project to the regular Federal-aid funding provided Federal funds and obligation authority are made available for the project, after an advance construction project is authorized.

Table 1 below shows the Statewide Total by MPO of Advance Construction projects. Table 2 shows the listing of each Advance Construction project that the Department has identified during the four years of the 2011 FSTIP.
